PROTECTION AND SAFETY SYSTEMS FOR SHAFTS

## ABOUT ONAMAG

We are an innovative start-up specializing in protection and safety systems for and on shafts. We protect people and the environment from pollution and accidents.

Expensive and time-consuming cleaning, the use of separators and auxiliary covers in road construction are a thing of the past.

## + CLEAN-O PRODUCTS

### CLEAN-O-IR-NW600

- IR=Round
- NW600=Nominal Width

#### Application

- Inspection Shaft
- Pavement Works

#### Features

- Disposable Film
- Opening for Pick Hole
- Precise Fit
- Flexible

### CLEAN-O-IS-NW45/36

- IS=InletSquare
- NW45/36=Nominal Width

#### Application

- Inlet Shaft
- Pavement Works

#### Features

- Disposable Film
- Opening for Pick Hole
- Precise Fit
- Flexible

### CLEAN-O-WS-NW20

- WS=Water Slide
- NW20=Nominal Width

#### Application

- Water Slide
- Pavement Works

#### Features

- Disposable Film
- Precise Fit
- Flexible

## OUR PATENTED PROCESS

1

Applying CLEAN-O to the clean shaft.

2

Apply bonding emulsion to the base layer.

3

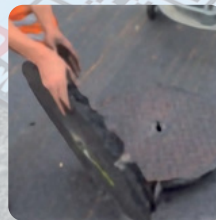

Before installing the pavement, insert CLEAN-O-HOLE into the pick hole.

4

After the pavement installation, professionally pull the shaft through the top layer.

5

Manually remove the pavement around the manhole cover and recycle it.

## + CLEAN-O-HOLE

Protecting the Sewer System from Contamination During Pavement Installation.

Insert CLEAN-O-HOLE into the pick hole to protect the sewer system!

See for yourself.
